

Young Expert Assignement

The International Junior-Expertise for Agro-developpment

You are a company, a non-governmental organization, a cooperative, a community or a research organization,

Contact us to conduct
an expert audit of your development project.

- Feasibility study
- Impact study
- Market or sector study
- Diagnosis (territorial, agricultural, environmental, social)

Our group is specialized in **AGROFORESTERY**.

We are 10 students currently in their 3rd year at ISTOM, a **French engineering school** in agronomy and international development.

With a unique training cursus, it offers a **5 years** solid **transdisciplinary** approach of **development** through **agronomy**, **economics** and **social sciences**.

The audit will include a methodological and logistical **preparation** phase during several months, followed by a **field phase** of 1 to 2 months between May and August 2021, as well as a constant **pedagogical support**, generally monitored by a teacher-tutor mobilized on the field.
